RE: TAZEWELL COUNTY/LPC #17980101
PEKIN/MUNICIPAL #1

Dear Mr. Nienkerk:

We have instructed our consulting engineer to proceed with the planting recommendations in his letter dated September 19, 1980. We have also instructed him to assist the City Street Department in erecting gates and fencing to prevent unauthorized access to the landfill site.

On the first Wednesday of each month, a representative of the City Street Department and/or the consulting engineer will inspect the site for random dumping, gas, water, and settling problems.

We welcome representatives from your Agency to participate in these inspections.

Yours very truly,

Willard F. Birkmeier, Mayor
